Was at North School 2 years 248 Congress
 Street there paid 3 of the rent the rest was
 paid by government HUD While there was cold
 first winter also both men on side of me
 when slamming there door called the police
 one I went to the manager The manager do
 nothing Went to manager company prevention
 management they do nothing I should of left
 that year I stayed another year I so cold
 that winter got pneumonia in hospital for
 three days. I have been given round around
 been to two doctors office snow calling

Men did my business I went out the side
 door as a women trouble when went out
 front door. I left there when it come
 time for they take my raise on social
 security I gave my 30 day notice I had
 put in for another apartment, Went to see
 my sister for 6 weeks, as had to get away
 after what put up with at North School, When
 got back went to Barrington Palacion I they said
 had written notice in mail they had an
 apartment lost that. Went to get an apartment
 at embassador on Casso street, I went to
 Augusta to get a section of nager, they
 would give to me I do not end part men
 there.

Mart went to Congress Square Plaza & they
 said had the apartments & showed me both
 & said I could have the efficiency. I wrote
 a lot of running around as had to have
 papers made out from 3 places had been 2
 before. They gave me a hard time & the
 other referees had not profiles when got
 a reference from Marty ^{North School} McEntire. They told me
 that she wrote I not nice to her, I did tell
 her she set on butt & do nothing about the
 heat & slamming door. She said I would not
 sign a piece of paper to make apartment I
 said why as I been in the apartment, I did
 sign when they then came in apartment
 I left. She also said I told her to take out
 my deposit for last month's rent. I went to
 court house about sue
 then.

I did this as a friend I knew in apartment
 house, there told me when she left they
 would not give her back deposit. I was
 at another apartment done same thing to
 me & took them to court & lost part of the
 deposit. I went to Augusta to Governor's office
 & to office up there on housing had a lawyer
 while there & none do any thing, I put
 plastic over windows to keep out cold &
 over the outside wall & the wind took off
 the plastic.

hard for me to live there. I told Monty
you want it warm when you get home
but I can't have it in apartment there
at North school. They want me to live (3)
in a subsidized apartment & pay $\frac{1}{3}$ of my
rent. I get Montana Pension & also my
social security. Where ever been before they
had not complaint of me living there until
I left. Would it stay if they had done
something, I paid my rent each month

I don't know how one person can take
away my right under housing. All people
in these apartment housing gets an one
for government through our rent. Many people
I know also have left one place for any
other many times. The manager said at
Congress square I had to have two bad
reports against me. My income is going
here at Grand Lodge. I also have to pay for
things in storage. This is not fair legal
or right. I said why don't you give me
the \$ I think you paying for an apartment
give to me. This all through government
money from Washington to the state of Maine.
I have done all I can I don't know why
someone do something I am a US citizen
I spent most of my life in the state of Maine

While I was out of my bed room on the main next door having people in there I wake me up at night, I moved into the living room. It cold there I moved into (4) the dining room next to hall I cold there had to go I get warmer blankets + flannel sheets. The janitor did nothing I had to turn on the stove in kitchen to get heat. It got so cold I get out I stay away all day at library or some where else to keep warm. I had the city inspector in before came was so cold that ready to leave, I don't know if the janitor turned up heat before he come in I also put plastic to block off the living room from dining room + hall + kitchen + the hall that went into living room.

My money + the money that government put in went right out through the walls. I have been to pine tree legal office next to it, they told me to go make out an application at 100 S. State Street where I had been once before. Congress square plaza would not accept what manager wrote then the other apartment made out papers for that it not right. I never caused any problem in any apartment where been I was the other people there that made it
